

コンピュータ・IT分野の研究に必須の分野を幅広くカバーします

- ◆ コンピューターサイエンス、情報科学、応用科学に特化した専門的な全文データベースです！
- ◆ コンピューター・応用科学関連の雑誌、**約 2,000 誌**(うち査読誌約 **1,400 誌**)の インデックス・抄録情報を収録しており、また 940 誌以上(うち査読誌 680 誌以上)の 全文情報も提供します！
- ◆ 雑誌の論文記事だけでなく、書籍、会議録、プロダクトレビューなど、様々な出版物を収録しています！
- ◆ 収録分野はコンピュータ理論とシステム、エンジニアリング、最新技術など、その他多数！
- ◆ コンピューター・IT 分野の用語を収録した “*The Computer Desktop Encyclopedia*” を搭載！
- ◆ 総収録データ数は **450 万件以上**、収録データは毎日更新されます！
- ◆ 学術、専門分野から業界最新情報まで一挙に検索できる、大変優れたデータベースです！

収録雑誌数 (フルテキスト)	収録期間 (フルテキスト)	収録雑誌数 (抄録)	収録期間 (抄録)	更新頻度
940 誌以上	1965 年～現代	約 2,000 誌	1956 年～現代	Daily

- ◆ キーワード検索だけでなく、引用文献・被引用文献検索も可能
- ◆ 書誌データには著者自身によるアブストラクト(抄録)やキーワードが付加されており、より精度の高い検索結果を得ることができます
- ◆ RSSに対応しているので、最新情報のチェックも容易に行うことができます

Computer & Applied Science Completeは

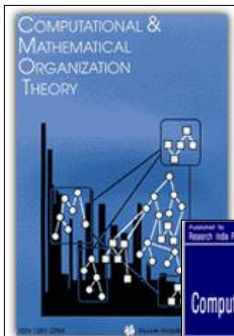

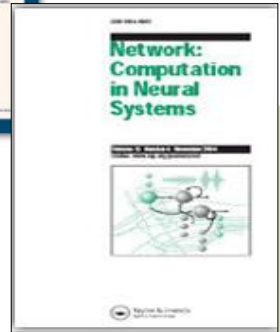

- *Computer Science Index (CSI)*
- *Information Science & Technology Abstracts (ISTA)*
- *Internet & Personal Computing Abstracts (IPCA)*

のインデックス情報を100%収録しています！

Computers & Applied Sciences Complete収録雑誌タイトル例

一例として下記のタイトルの全文情報を、最も古いもので1965年まで遡って収録しています

- *Applied Physics Letters*
- *Computer Animation & Virtual Worlds*
- *Interfaces*
- *International Journal of Intelligent Systems*
- *Journal of Applied Physics*
- *Journal of Cryptology*
- *Journal of Field Robotics*
- *Journal of Geology*

- *Journal of the ACM*
- *Journal of Visualization & Computer Animation*
- *Knowledge & Information Systems*
- *Network: Computation in Neural Systems*
- *Physics Today*

McAfee and Panda packed in the most security extras.

Just install, everything's behind and reinforced network traffic and logging responses behind. The firewall of the new sites we tried all for one set most of general security level, whitelists and blacklists, individual applications, and available specific ports and network protocols. Great firewall on different between good and bad traffic, also you to various results, and provide enough detailed download activity for you to make an educated decision about whether to allow it. Slight firewall page-up or frequently with various privacy information that you may not see blocking traffic you need-or worse, leaving the firewall off.

We tested the other E-mail for their ability to default settings to block attacks from outside access, as well as from malware apps directly on the PC. The CA, Microsoft, Symantec, and Zone Labs products each scored 100 percent in our inside attack tests. However, we made no distinction the firewall in current, delete it from last down, or miss the right of legitimate programs never activates. For example, will be closed up to back like Internet Explorer and will be in a list of computers both before and after we installed each of these sites weren't able to access the Internet.

As the default settings, Alice's firewall blocked all our inside attack tests, but a high setting passed both the subscription rights test and the backdoor test. Alice's test that the user's default settings which have been open, ports 80 and 443, is prepared to be in the number of initial firewall alerts.

The other products scored very low scores, and Frank's passed most of the test tests. Keep in mind that AV-Test runs standardized test but not able to security zones. Zone Labs, for one, failed to protect us from all test tests. Frank, on the other hand, says that it doesn't register its software for test tests, normal driving on the Internet.

ZONE LABS CONTROLS for W clients are excellent.

Everything's Hiding On It.

PIONEERING IMPROVEMENTS IN THE FIRE RESCUE INDUSTRY

Spartan Chassis originated in 1975 with a group of four young engineers from Diamond Dr. Trucking Company. At that time, Diamond HD was headed toward bankruptcy. The new man in charge decided to go on as they could. The man did everything they could to do build trucks, and build trucks well. The man did everything they could to do the establishment of Spartan Motors. They took out several mortgages on their homes for capital and pushed every possible penny to make each truck.

Nearly thirty years, Spartan Motors, Inc. became a leading manufacturer of custom chassis and vehicles for fire trucks, ambulances, emergency services, recreational vehicles and military defense vehicles. Spartan Motors' three subsidiaries, Fleet Rescue, Custom Fire and Spartan Chassis, have had an excellent reputation for building high quality, flexibly designed, reliable vehicles supported by characteristic customer service.

Over the years, Spartan Motors' subsidiary, Spartan Chassis, has pioneered improvements in the fire rescue industry, including fully enclosed cabs, standing height interiors and standard warning systems, which have dramatically improved safety and comfort for firefighters. Many innovations that Spartan has engineered are now standard in the fire rescue vehicle industry. Spartan Chassis' ability to build custom fire rescue cabs and chassis that fit the needs of any fire department is recognized in the industry.

Spartan Chassis understands the demand for specialized rescue vehicles that serve in vastly different environments, and their approach to manufacturing reflects that call for customization. Each vehicle is built to order. Starting from one of Spartan's latest platforms and custom designing a vehicle to meet the exact needs and desires of the fire department.

Since 1975, Spartan has acted as a leader of vehicle and innovative custom emergency rescue vehicles. The company is dedicated to improving the lives of the men and women who work in the fire rescue industry by making exceptional vehicles.
